INTRODUCTION

The 1990 Master Index to non-confidential Manitoba Assessment Reports covers approximately 3,000 exploration reports received as work commitments on mineral dispositions now lapsed. This collection is held and maintained by the Geological Services Branch, Manitoba Energy and Mines.

Each report in the index is identified by a five-digit accession number starting from 90001. The index is divided into four parts, the first three being cross-references to the fourth.

- Part A lists all reports of work arranged by NTS area.
- Part B indicates the reports on the basis of company name.
- Part C lists the reports by claim name or number.
- Part D lists the reports by accession number and provides a brief summary of the content of each report: NTS area, company, claim name, type of work, year when work was done and extent of work (metres for diamond drilling and kilometres for geophysical surveys).

For each report only one NTS area and one claim are listed in Part D. If the report includes more than one NTS area or several claims, these other NTS areas and claims will appear in Parts A and C respectively.

In Parts A, B and C, the type of work described in each report is coded by a single digit number that follows the accession number after a slash (/):

1 = Geophysical Surveys.
2 = Surface work (Geological, Geochemical Surveys, Prospecting, Trenching).
3 = Combination of 1 and 2 above.
4 = Diamond drilling and underground work.
5 = Combination of 1 and 4.
6 = Combination of 2 and 4.
7 = Combination of 1, 2 and 4.

Non-confidential Assessment Reports are open for public inspection during regular office hours and copies can be obtained from Room 540 - 330 Graham Avenue, Winnipeg.

Reports for The Pas Mining District, i.e. Flin Flon, Snow Lake, Lynn Lake, Thompson, etc., are also available (for inspection only) at the Recording Office in The Pas, Phone (204) 623-6411 Ext. 268.

A complete collection of the reports on microfiche is available in the above offices and at the regional office in Flin Flon, Phone (204) 687-4222. Diazo duplicates of the microfiche can be obtained from the Winnipeg office at cost. Microfilm-microfiche reader-printers are available in the Winnipeg and The Pas offices.

The area covered by each report is indicated on mylar overlay maps at claim map scale (2" = 1 mile). This map series covering all mining areas of the Province is available in the Winnipeg office, but is also available on microfiche in the northern offices.

The Winnipeg office maintains the confidential Assessment Report File, i.e. reports covering properties which are still in good standing. These reports may be made available to the public only upon written consent of the Holder of the mineral disposition.

REPRODUCTION CHARGES

Photocopy of any page size document ..... 25¢ per page.
Print of any map ..... at cost of reproduction.
If an autopositive has to be made, the first customer to request a copy of that map will be charged half the cost of the autopositive. Cost of the other half will be borne by the Department. The autopositive will remain in the Assessment File for future use.

The 1990 Master Index replaces any previous Index of non-confidential Assessment Reports. Purchasers of this Index will receive, free of charge, bi-annual updated supplements for the following three years. After that time it is intended to issue a new Master Index.

Copies of the Master Index 1990 are available at a cost of $15.00 from:

Geological Services
Publications
555 - 330 Graham Avenue
Winnipeg, Manitoba
R3C 4E3
Phone: (204) 945-6541

Change of address should be reported as soon as possible to ensure receipt of the updated supplements.

Diligent efforts have been made to ensure that the information presented in this report is accurate. However, the Province of Manitoba and Manitoba Energy and Mines do not assume liability for any errors that may occur.

Should the users of this report find any error or should they wish to make any comment or suggestion on the content and format of the Index; the Branch's regional offices would appreciate hearing from them.
